
The class label is emitted on both branches. The gate does not change it.

Level 0 surprise
implemented and recorded
this head does not sleep on it
0.208 mJ is already inside
the 5.408 mJ Level-1 cost

Level 2 budget
modelled cost, not executed
charged only on the
Level-3 branch above
1.040 mJ of the 1.045 mJ

Digital twin
simulation only
not on this path
not the 10.4% result
